**The Beaded
Creation
Story:
A
Spiritual
Venture**

**“An epiphany enables
you to sense creation not as
something completed,
but as constantly becoming,
evolving,**

ascending.
This transports you from a place
where there is nothing new to a
place where there is
nothing old, where everything
renews itself, where
heaven and earth
rejoice as at the
moment of Creation.”

The Essential Kabbalah

THE GREAT STORY (also known as the Universe Story, Epic of Evolution, or Evolutionary Epic) is humanity's common creation story. It is the 14 billion year science-based sacred story of cosmic genesis, from the formation of the galaxies and the origin of Earth life, to the development of self-reflective consciousness and human technology, to the emergence of comprehensive compassion and tools to assist humanity in being a blessing to the larger body of life.

THE GREAT STORY is a way of telling the history of everyone and everything that honors and embraces all religious traditions and creation stories. It is the sacred narrative of an evolving Universe of emergent complexity and breathtaking creativity and cooperation — a story that offers each of us the opportunity to find meaning and purpose in our lives and our time in history.
